

October 20, 2011

To whom it may concern:

I am writing this letter of recommendation for Ms. Komal based on our family's experience at Providence Montessori School. Ms. Komal runs a wonderful, academically rich program full of materials and experiences sure to capture any child's attention and interest.

As soon as our daughter began to attend Providence, we noticed a change in her. She was quick to tell us about her friends and the lessons she did during the day. At two and a half, she happily identifies letters and counts to 20. She sings songs she's learned at school, and tells me stories that I later learn came from school as well.

Our daughter had never been away from family prior to attending Providence Montessori, and she struggled quite a bit with separation anxiety. Ms. Komal did a wonderful job working with us to ensure that our daughter's transition to school was as seamless as possible. Our daughter had a history of fine motor difficulties (such as holding a fork or pencil properly). Ms. Komal was quick to offer her support and advice as well as soliciting the support of the Children's Services Network, a program designed to assist preschools in Fresno County with offering a full-inclusion environment for students with special needs. The support she sought for our daughter was wonderful, and we are very grateful for her caring attention and instruction.

I would highly recommend Providence Montessori as an excellent academic program for young children here in Fresno.

Sincerely,

Kylee Luchetti, M.Ed
